Company location	NA	Malmö, Sweden. AAK has 20 different production facilities. AarhusKarshamn has production facilities in Denmark, Mexico, the Netherlands, Sweden, x 2 in UK, Uruguay and the US.	Singapore. Ghana Speciality Fats Industry Limited (ADM Company (50%), Wilmar International Limited (50%), Free Zone Enclave, Plot C5-16, Tema, Greater Accra Phone: +233 (303) 318 460	Malysian company but also based in Netherlands. Large-scale refinery in Rotterdam and use Nioto manufacturing base for crushing of shea nuts for export in West Africa.	H/O in Tokyo, Japan with 30 satellite offices including an office based in Accra, Ghana.
Target markets (e.g. cosmetics, cocoa-substitute)	NA	CBE for Choc industry is their 2nd largest business. Chocolate and Confectionery, Bakery, Dairy, Special Nutrition, Foodservice, Personal Care		The speciality oils, fats and fatty acids manufacturing business is carried out by IOI Loders Croklaan which has manufacturing operations in the Netherlands, USA, Malaysia and Canada. The leading producer of premium quality oils and fats, inc shea.	Cocoa substitute and shea nut oil. Trading company. Customers are in Asia, including Japan through their network and sourcing in the Americas.
Location of markets	NA	Global. Sales offices in more than 25 countries, sales in more than 100 countries, and more than 3,400 employees.		Global. Bunge, NY based company brought major shares in IOI in 2017, with aim to diversify manufacturing and establishing a stronger presence in fast-growing Southeast	Global
Value chain position	NA	317,000 Tonnes of fats for the confectionary industry in 2015. Vegetable oils including shea. They provide processing, formulation, lipid specialists. CBE for the confectionary industry is their 2nd largest business. They buy shea KERNELS, not already processed from 100 suppliers across West Africa. AAK Kolo Nafaso Programme, 130,000 women collecting for them. 100% Burkina Faso suppliers have signed AAK supply chain code of conduct. Crush their own shea nuts in Denmark, the only European company to do so.	Global leader in processing & supplier of edible oils and manufacture of speciality fats, exotic fats and vegetable oils & CBE - shea butter & shea oils. World's largest palm oil plantation owner. presence in over 20 countries in Asia and Africa. Ghana Speciality Fats started production in March 2007, according to Reuters Modern Ghana, processing up to 25,000 tonnes of shea nuts a year, making it the biggest shea nut processor in the West African country. It's not just shea nut crushing but producing speciality fats and oils for big food processing companies.	Supplier of CBE - shea butter. Recently changed major shareholders. Used to be owned mostly through an Asian partnership. An American company has bought them out, 70% in a first phase and additional 30% soon. They are keeping their name and brand for continuity with their clients. The supply chain is mostly conventional through traders, with 15% of their supply through direct purchases from women's groups. Reason is that traders handle all logistics, storage etc, while women need to be supported in many aspects which is demanding. They buy only nuts.	Trading company in lifestyle/Food and healthcare industries. Secures, raw ingredients, oilseeds for edible oils, cooking oils ie shea nut oil in order to develop, manufacture and sell food products to retailers.
Business function		The world's-leading sourcer and manufacturer in customized and sustainable vegetable oils and fats solutions. These fats are characterized by a high technological content and are used as substitute for butter-fat and cocoa butter, transfree solutions for fillings in chocolate and confectionery products, and in the cosmetics industry		Development and manufacturer of speciality fats and oils for the bakery, confectionery, dairy and foodservice segments to/for brands. Fractionation plant in Tema, Ghana with 100T/day capacity, next to 3F (a key supplier of shea butter). They mix shea stearin with other oils to supply chocolate (Mars, etc) and other food industries, for instance the French St Hubert margarine line that has replaced palm oil with shea and other oils. Their plant in the Netherlands is from 1990, getting outdated, thus the need to refresh their processing capacity. They don't take part in the cosmetic market (want to maintain food sector reputation).	Trading company and manufacturer.
Sustainability focus				Includes the use of improved cookstoves to reduce fuelwood consumption, distribution of rollers for health issues, assisted parkland regeneration (limited success due to lack of right partner) and participation as private sector in Green Climate Fund proposal in Ghana.	CSR. Environment and gender
Results					
Sourcing quality standards and post proc	NA	1. Responsible sourcing. Responsible supply chains. The AAK Group Supplier Code of Conduct applies to all of AAK's direct raw material suppliers worldwide and we require all of them to sign and commit to it. KOLO NAFASO womens group 31,607 women in 2017 to 134,261 women in 2018.		Their supply system allows them to trace production down to the village at truck loading stations. They can tell quality to some extent, for instance on fat content of nuts. For instance, trees in the area southeast of Bamako at the Malian-Guinean border with 2-3% higher fat content than average. There is a well known east-west gradient of stearin content (Eastern nilotica subspecies is richer in olein). They do not buy organic nuts yet. However they do observe the rising demand even in the food sector and ask themselves whether they should get involved in the future.	
Timing of purchases		Now/Dec time discussing projections and prices for following year		They have a monitoring system of tree stands at given locations they monitor and evaluate upcoming harvests throughout the region which allows them to have production trends for the coming year.	
Export Route and details.		Have Ghana logistics office (KI Ghana)
