

EXPORT GUIDELINES

The checklist process set in place to ensure correct export procedure:

Name of Checklist Inspector and Date:							
Information Required for Every Batch:	Batch Code	Net Weight (kg)	Date of Production	Place of Production	Customer Name & Country	Name & Address of Exporter	Tick Below if Document is Present
Documents Below Required to Export Shea Butter or Shea Nuts. Tick end box if present.							
Compliance with EU Cosmetics (Regulation (EC) 1223/2009)							
Compliance with legislation on Registration, Evaluation and Authorisation of Chemicals (REACH)							
Technical Data Sheets (TDS)							
Certificates of Analysis (COA)							
Safety Data Sheets (SDS)							
Country of Origin (CO)							
Packing List & Commercial invoice							
Verify labelling							
Verify legal packaging requirements							

Packaging requirements

Packaging Requirements: Along with legal requirements on packaging of chemicals, European buyers have their own packaging requirements. One of the main requirements is to preserve the quality of the product.

For every export we need to:

- Use containers made of a material that does not react with components of the butter, such as lacquered or lined steel and aluminium. Polythene-lined boxes (25 kg) are permitted.
- Clean and dry the containers before loading the butter.
- Fill the headspace in the container with a gas that does not react with constituents of the butter, such as nitrogen or carbon dioxide.
