

11th April 2019

Dear Serious Shea,

We were interested to learn that Serious Shea is working to develop a shea processing plant and collection centres in Burkina Faso. (with approx. 1000t unrefined shea butter produced per annum from its pilot project).

Henry Lamotte Oils are active in purchasing unrefined Shea butter of a range of grades and sell into international markets. Overall, it will be purchasing over 350 tonnes in the coming years; Shea is seen as a growing market

Subject to Serious Shea meeting our specification requirements and offering an acceptable price, we would be interested in starting discussions to develop an offtake agreement together.

Best regards,

Mit freundlichen Grüßen/Best regards

Yannic Sommer
